\$5,000,000 FRAUD BANK EXAMINER'S TRIAL OF WIRELESS MEN UNDER WAY

Conspiracy to Defraud by Use of Mails.

23,000 BOUGHT STOCK.

Notable Array of Counsel Present-Jury Box Filled-

Testimony To-Morrow.

Seven chief officials of the United Wireless Telegraph Company were today placed on trial before Judge Martin in the United States District Court upon an indictment charging them with devising a scheme to defraud the pubic, with the use of the Post-Office Department. It is charged that the defendants sold \$5,000,000 of stock in their company upon false representations as to its character, value and future prospects. Four counts made up the indictment.

Three of them were based upon in-dividual letters from the defendants and the fourth count made a general charge of conspiracy to devise a scheme to defraud.

A large crowd was present and the list of counsel for the defense was impressive. The defendants and their counsel were:

C. C. Wilson, by Arthur M. King and John B. Stanchfield: S. S. Bogart, by William Travers Jerome; W. W. Tompkins, by John B. Stanchfield; Francis X. Butler, by W. Bourke Cockran; William A. Diboll, by C. H. Wilson and Charles Rough; Charles C. Galbraith, by Philip B. Adams; George H. Parker, by Hardin & Heas and E. B. Palmer.

Judge Martin overruled the demurrers made by counsel for the defense and ordered a jury called. Assistant District-Attorneys Dorr and Smith had the Government's case in charge. Bourke Cochran asked the Court to

separate the trial of Francis X. Butler from the general hearing, but withdrew the motion when the Government's counsel objected. Then the skirmishing ceased and the lawyers settled down to the task of selecting a jury.

The jury box was filled late this after-

soon. It is expected that the taking of testimony in the case will begin tomorrow morning.

Before adjourning court Judge Martin told the jury he would not follow the custom in certain important cases and lock up the jury. He said he intended to trust the jury at large during the trial, but he cautioned the members not to discuss the case with any one.

History of the Case.

Christopher Columbus Wilson and his associates were arrested June 15, 1910, when Post-Office Inspectors Mayer, O'Brien and Keene raided the offices of the United Wireless Com-pany at No. 42 Broadway. The Kind You Have Always Bought.

THIS is the caution applied to the public announcement of Castoria that has been manufactured under the supervision of Chas. H. Fletcher for over 30 years—the genuine Castoria. We respectfully call the attention of fathers and mothers when purchasing Castoria to see that the wrapper bears his signature in black. When the wrapper is removed the same signature appears on both sides of the bottle in red. Parents who have used Castoria for their little ones in the past years need no warning against counterfeits and imitations, but our present duty is to call the attention of the younger generation to the great danger of introducing into their families spurious medicines.

It is to be regretted that there are people who are now engaged in the nefarious business of putting up and selling all sorts of substitutes, or what should more properly be termed counterfeits, for medicinal preparations not only for adults, but worse yet, for children's medicines. It therefore devolves on the mother to scrutinize closely what she gives her child. Adults can do that for themselves, but the child has to rely on the mother's watchfulness.

Genuine Casteria always bears the signature of the substitutes.

This is not an unexpected sale; but one of those carefully-planned events that is helping to make the Gimbel Blouse business the largest in the United States. Many women wonder how we can make every one of these events larger and better than the previous sales. There is but one answer- our tremendous buying capacity both in America and Europe. And, although we place large orders, we have the Blouses made in a variety of styles, so that the women who wear Gimbel Blouses will not meet a thousand women wearing the identical kinds. In quoting the prices at which these Blouses were planned originally to sell, we have been very conservative—as every woman will know when she inspects them tomorrow. We could talk indefinitely about the many styles-only a few are illustrated. It is remarkable that styles are so numerous and so different-some are enriched with real Irish lace, others with Cluny, while dainty Valenciennes lace is interwoven between the trimmings of others. Then, too, there are Blouses with Parisian frills-some with a charming contrasting color. And the hand-embroidery-it is exquisite and much in evidence-dainty two-tone effects, others in rich Oriental harmonies. Even some of the blouses at \$1 are encrusted with scores of hand-made French knots. All the lovely sheer fabrics that fashion favors-white marquisette, cotton voile, batiste and striped lawns; in qualities that warrant durability.
